Company Profile

*Local Regional and Interstate Transport & Distribution*

# Welcome To Shoobridge Transport

Shoobridge Transport, a family owned and operated company had its origins back in the 1970's when banana growers Glen Shoobridge and Des Stafford purchased their first truck and began carrying their own produce to market. As other growers came on board and with an expanding fleet, transport quickly became the main priority.

Originally "Shoobridge and Stafford", the company is owned by Glen and Gwenda Shoobridge and sons Barry (Basil) and Peter (Pedro). The business has grown significantly over the years and now employs over 60 dedicated local employees who are the "driving force" behind Shoobridge Transport.

## Quality Assurance

Our commitment to quality and reliability goes beyond just getting the job done. Shoobridge Transport is a quality endorsed company with accreditation to Quality Management System ISO9001:2008, HACCP (Food Safety), and NHVAS accreditations. We are Trucksafe accredited, which covers all aspects of safety, including driver health, as well as maintenance procedures. These accreditations are all part of our ongoing commitment to developing the high level of service we are known for.

Safety and compliance is at the forefront of our operations and in addition to our numerous accreditations, we are active members of industry associations, Natroad and the Australian Trucking Association.

Today Shoobridge Transport operates a modern fleet of over 35 trucks in B Double, Semi Trailer, and Rigid configurations servicing a wide variety of clients in the food industry. From specialised temperature controlled distribution, linehaul interstate services, to storage and freight management, Shoobridge Transport is committed to servicing our customers requirements in both ambient and refrigerated as well as general freight.

With Quality Assurance, HACCP and Trucksafe accreditation systems in place, Shoobridge Transport are well placed to offer safe, reliable and efficient transport services to local, regional and interstate destinations.

### Technology

Whilst service and safety are a priority at Shoobridge Transport, communication is an integral part of our philosophy. We use the latest in satellite technology to monitor fleet movements and driver behavior as well as provide up to date information on load status and ETA's. We have also invested in new fatigue management software to help meet our fatigue management obligations and allow our drivers to better manage their driving times. In addition to this, we use modern transport specific accounting software to manage accounts, freight bookings, and storage requirements. We also provide up to date KPI reporting for various customers on an ongoing basis.

### Fleet Maintenance

Shoobridge Transport operates its own internal workshop. Our fleet is maintained in accordance to NHVAS standards and is regularly reviewed by external auditing. Our qualified mechanics undertake all aspects of servicing and preventative maintenance and receive external training with many of our component suppliers. We continue to invest in the latest fleet and equipment with a view to achieving ongoing efficiencies, and use a specific workshop management software to monitor costs and manage servicing schedules. Our commitment to the environment is continually improving with modern waste management procedures and the purchase of cleaner running and more fuel efficient engines a priority.

## Services

### Retail Distribution

Shoobridge Transport have a long history of providing transport services to retailers across South East Queensland and Northern NSW with daily services from Brisbane to the Sunshine Coast Gold Coast, Darling Downs and Northern Rivers region. We service a large amount of stores on a daily basis, including major food chains with frozen and chilled products, fruit and vegetables and general grocery products. With our specialized vehicles fitted with tailgate loaders, electric pallet jacks, and dual temperature refrigeration units, we are a committed link in the retail chain.

### Food and Ingredients

Shoobridge Transport provides transport and distribution services to a wide variety of food manufacturers from our region. This includes deliveries to all major distribution centres nationally. Timeslots and bookings are all handled internally by our efficient operations team. Additionally, we also service many small and regional food distributors. Export orders to ports and freight forwarders is also part of our network of services. In addition to delivery of finished goods we are specialists in the transport of inbound ingredients and packaging requirements for many of our manufacturing customers, as well as storage, warehousing and dispatching of all products. The variety of products we transport continues to grow with bottled water, ice cream cones, muesli, beer, fruit juice products, health and cosmetics, as well as numerous chocolate, energy bars and biscuit products joining the list. We are committed to maintaining the quality of your products, while offering competitive, safe and reliable transport services to all our clients.

### Fresh Produce

From our Head Office in Murwillumbah we provide regular services to all capital city produce markets. Our knowledge and experience in all aspects of produce transport including on farm pickups, storage, pre cooling and food safety (HACCP) combine to offer a reliable and efficient service to the growers of the North Coast region.
